Laboratory Identification

Labels, printers & software for laboratories

About BRADY

Once you have worked with BRADY, our name will stick with you, (just like our labels) because BRADY is one of the world's leading labelling and identification specialists.

Innovative

At BRADY we continue to improve. We have many customers from all industries, and we strive to be ahead of their needs by continuing to invest in research for even more performant solutions. By developing more user-friendly and efficient concepts, we give our thousands of customers the best in the market.

Strength

At BRADY, we believe our biggest strength is the wide range of identification and safety solutions we can offer our customers, whether it's labelling the smallest component or complete signage for an entire warehouse. We're also proud to offer many products and services - from printers, scanners and software to service contracts and on-site training - that compliment any identification job. And don't forget, our wide network of expert distributors can always offer you a tailor-made solution to meet your specific requirements.

Trust

For over a hundred years, BRADY has been connected with quality, trust and stability. We demand the best for your products and services, because we know, better than anyone, the importance of good and reliable identification. Identification looks like a small detail, but every professional knows that this kind of detail is crucial to any business.

Inform

We also have specialised dealers in your region, who can answer all your identification, safety and labelling questions, specific to your activity. They will be happy to provide you with all kinds of options and solutions with no obligation.

Brady products are sold on the condition that the purchaser will test them in actual use and determine for himself/herself their suitability to his/her intended purpose. Brady warrants to the purchaser that Brady products are free from defects in material and workmanship but limits its obligation under this warranty to the replacement of the product which has been shown to Brady's satisfaction to have been defective at the time of its purchase.

The warranty does not extend to any persons who have acquired the product from the purchaser. It is in lieu of any other warranty, including every warranty of sale-ability, marketability or suitability for the intended purpose, and is also in lieu of any other obligation or liability on the part of Brady.

Under no circumstances will Brady be liable for losses, damage, costs or subsequent damage of whatever nature which may arise in connection with the use of, or inability to use, Brady's products.

The Brady Advantage

When it comes to identification, safety and compliance, there's a clear advantage to working with Brady. We put our customers first in everything we do.

Our goal is to give you an unrivalled customer experience. We are relentlessly committed to performance and excellence - in our products, services and people.

Our products and solutions perform in ways that others simply can't match. Our people perform in ways that regularly exceed your expectations, and our focus and discipline work toward solid, long-term performance for our customers.

In short, Brady is the company you trust when performance matters most.

Learn more about the Brady Advantage at: www.bradyeurope.com

Simplify Your Laboratory Identification

Brady's laboratory identification products are designed to serve the world's biotechnology, agricultural, environmental and forensic researchers. Whether you work in pathology, histology, chromatography or other areas of science, Brady labelling solutions can help you maintain Good Laboratory Practice.

Brady Sample Identification solutions:

- match existing vial, slide, and well plate sizes
- remain legible throughout processing and storage
- endure freezer storage, liquid nitrogen, autoclave, hot water baths and solvents including Xylene, DMSO and Ethanol
- allow bar coding for extensive information storage on even the tiniest sample
- integrate seamlessly with your Laboratory Information Management System (LIMS)

Hand-written versus printed labels

Did you ever have to postpone research because of unidentified samples, or because nobody was able to read anymore what was once written on the sample you need? Printed laboratory labels, engineered specifically to identify samples, help avoid sample loss and a lot of frustration.

Hand-Written Information

- Is difficult to read
- Smears when handled
- Has limited communication potential
- Fades over time when stored
- Is erased by chemicals

Brady Printed Laboratory Labels

- Are crisp, clear and readable
- Do not smear nor fade
- Can hold much information
- Have increased durability
- Resist chemicals

Lab-durable labels

Brady's special self-laminating or wrap around label protects your label's legend from extreme temperature, chemicals and solvents.

For best adhesion, we recommend that you do not touch the adhesive side of the label when wrapping it around your vial or tube.

- Printing is readable every time
- Clear portion wraps around and laminates the legend
- Provides window to view liquid level inside vial
- Low profile (extremely thin) label resists jamming in centrifuge or racks
- Labels withstand liquid nitrogen (-196°C), freezer (-80°C), autoclave (+121°C) and chemicals like Xylene

On-site Label Creation

Brady printers enable professionals to print highly specialised identification labels on-site and on demand. Partnered with customisable software and a specific application system for laboratories, adaptable to specific processes or data file formats, Brady printers support considerable time savings and flexibility in sample identification.

Every Brady identification label can be printed on-site using a Brady mobile or benchtop printer. See page 42 for the full range of label printers.

Laboratory Identification Labels

Extensive material knowledge combined with chemical expertise enables Brady to develop durable labels that perform throughout sample storage and processing.

Part number explanation

Most Brady references for printable labels follow the same three-part format: The first code indicates the technology, the second part is a number indicating the label size (where applicable) and the third part indicates the Brady material (where applicable).

VIAL / TUBE LABELS

Brady's vial and test tube labels are designed to withstand extreme laboratory solvents like Xylene, Ethanol, Alcohol and DMSO, ensuring that the specimen identification is always legible - and will not smear, fade or fall off.

- F** Freezer environment
- A** Autoclave environment
- H** Hot water bath (100°C)
- S** Self-laminating label
- L** Low-profile (extremely thin) label
- R** Removable

Labels are shown per vial / tube size and in order of label width.

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

VIAL TOP LABELS

Save time by using the Vial and Vial top combination labels - print your information in one go.

- F** Freezer environment
- A** Autoclave environment
- H** Hot water bath (100°C)
- S** Self-laminating label
- L** Low-profile (extremely thin) label
- R** Removable

Labels are shown per vial / tube size and in order of label width.

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

CENTRIFUGE / MICROCENTRIFUGE LABELS

Brady offers a wide range of Centrifuge, Eppendorf and PCR Labels. When applying a self-laminating label, we recommend you avoid touching the adhesive side of the label when wrapping it around a vial or tube, to ensure maximum adhesion.

Labels are shown per vial / tube size and in order of label width.

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

CRYO TUBES & VIALS

Brady's offers a range of labels designed specifically to identify laboratory samples for cryo storage. These labels can be applied to room temperature or to already frozen samples, albeit with a small overlap. The label will remain legible and will stick to the sample container during processing, even when exposed to extreme heat or chemicals like DMSO, Xylene and Ethanol, ensuring secure sample identification in the most challenging laboratory conditions.

- F** Freezer environment
- N** Liquid nitrogen environment
- A** Autoclave environment
- H** Hot water bath (100°C)
- S** Self-laminating label
- L** Low-profile (extremely thin) label
- R** Removable

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

Labels are shown per vial / tube size and in order of label width.

Part number explanation

Most Brady references for printable labels follow the same three-part format: The first code indicates the technology, the second part is a number indicating the label size (where applicable) and the third part indicates the Brady material (where applicable).

M71-73-461

BMP71
Technology

Label size
code

Material
(B-number)

Cryo Tubes & Vials

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

Labels are shown per vial / tube size and in order of label width.

CONICAL / LARGE TUBE LABELS

Brady offers several sample identification labels which are perfect to identify conicals. They are easy to handle, have great flexibility and easily wrap around curved sample containers. Your sample identification label will remain attached and legible, even when the sample is stored in a freezer, in liquid nitrogen or heated in an autoclave.

- F** Freezer environment
- N** Liquid nitrogen environment
- A** Autoclave environment
- H** Hot water bath (100°C)
- S** Self-laminating label
- L** Low-profile (extremely thin) label
- R** Removable

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

Labels are shown per vial / tube size and in order of label width.

SLIDE LABELS

Brady offers labels specifically designed to identify slides and to resist exposure to harsh chemicals during the slide staining process. They perform well in the hematoxylin and eosin slide staining process and offer superior chemical resistance also useful in other laboratory contexts.

Diagram

- F** Freezer environment
- N** Liquid nitrogen environment
- A** Autoclave environment
- H** Hot water bath (100°C)
- S** Self-laminating label
- L** Low-profile (extremely thin) label
- R** Removable

Labels are shown in order of label width.

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

TISSUE CASSETTE LABELS

Specifically designed to identify tissue cassettes, Brady's B-482 label withstands a temperature range from -80°C to 121°C and offers superior resistance to chemicals used in tissue processing enabling it to retain barcode legibility. The label must be used in combination with Brady's BSP31 Label Attachment System for pre-process tissue cassette identification and complements the use of StainerBondz slide labels as part of a complete histology process.

- F** Freezer environment
- N** Liquid nitrogen environment
- A** Autoclave environment
- H** Hot water bath (100°C)
- S** Self-laminating label
- L** Low-profile (extremely thin) label
- R** Removable

Labels are shown in order of label width.

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

Specimen Labelling Solution for Histology and Anatomic Pathology

As part of Brady's complete laboratory labelling solution, our combination of the B-482 Tissue Cassette label and the BSP31 Label Attachment System, **ensures your specimen will stick throughout processing, embedding and sectioning.** See page 54 for more information on the BSP31.

B-498 Re-Identify Tissue Cassettes Labels

Tissue cassettes are often re-identified when labs collect samples from various biorepositories. Typically, each laboratory has its own unique way of identifying samples, which creates a need to re-identify samples in a common way.

Brady B-498 post-process labels offer customers the optimal way to organise these specimens and conduct further studies. These labels can be applied directly onto the cassettes, on pure paraffin wax and on top of another label or identifier.

This is not the same as Brady's B-482 tissue cassette solution. **B-498 Re-identify labels are applied after processing and are never used with the BSP31 label attachment system.**

STRAW AND ROD LABELS

Brady offers a range of labels designed to fit the small surface area of straws and rods and will withstand long-term storage.

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

Labels are shown per straw size and in order of label width.

WELL PLATE LABELS

When total tracking of all sample collections is required then Brady has a solution for Well plate identification. Our well plate labels guarantee crystal clear text and barcoding for most lab environments.

- F** Freezer environment
- N** Liquid nitrogen environment
- A** Autoclave environment
- H** Hot water bath (100°C)
- S** Self-laminating label
- L** Low-profile (extremely thin) label
- R** Removable

Labels are shown in order of label width.

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

Part number explanation

Most Brady references for printable labels follow the same three-part format: The first code indicates the technology, the second part is a number indicating the label size (where applicable) and the third part indicates the Brady material (where applicable).

M71-73-461

BMP71 Technology Label size code Material (B-number)

BOTTLES / FLASKS & DISHES

Brady's labels for bottles, flasks and dishes are easy to handle and flexible. This enables the labels to be placed on curved containers and remain attached and legible, even after being subjected to freezing, liquid nitrogen and heat.

Diagram

Labels are shown in order of label width.

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

BOTTLE TAMPER SEAL LABELS

Brady's bottle seal identification provides tracking information with the added feature of security. These labelling materials are designed to fracture easily in order to show signs of sample tampering and to prevent one-piece label removal.

Labels are shown in order of label width.

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

General Lab ID

B-403 WATER DISSOLVABLE LABEL

The B-403 water dissolvable paper label is self-adhesive and extremely easy to apply. Exposing the label to warm water will completely dissolve it within 30 seconds, without damage to the surface it was applied to, and without leaving any residue. The water dissolvable label adheres well to most surfaces, including glass, stainless steel, aluminium, plastic and others. This makes the label a great solution to enable short term identification for containers, crates and glassware with a minimum of waste.

B-7425-AC STERILISATION INDICATING LABEL

Sterilisation indicating labels provide users with proof of sterilisation. They are ideal for a broad range of laboratory processes including sample tracking, inventory management, general tracking, and glassware or tray identification.

GENERAL LAB ID

Just like a durable sample label lets you know which sample you are holding, a cabinet or drawer label can inform you of the cabinet's content. With proper identification, time spent looking for the right sample or tool can be invested in what really matters. Brady offers a range of materials suitable for identifying drawers, cabinets, shelves, storage units and laboratory equipment.

Labels are shown in order of label width.

The background colours in the Order Reference column represent the material colour.

See page 42 for Brady's range of label printers.

Label Printers, Label Attachment System and Barcode Scanners

Brady printers enable professionals to print highly specialised identification labels on-site and on demand. Partnered with labelling software for laboratories, Brady printers support considerable time savings and flexibility in sample identification.

For enhanced security Brady offers a label attachment system that rivets an adhesive label to tissue cassettes before the tissue embedding process.

To complete your sample ID automation, Brady has a range of barcode scanners which combine the industry's best imaging technology with a graphic display and rugged keyboard for fast, user-friendly data and inventory management.

BMP21-LAB Label Printer

BMP51 Label Printer

BMP61 Label Printer

BMP71 Label Printer

The BMP21-LAB Portable Label Printer is an all-in-one labeller for research, academic and clinical labs. The BMP21-LAB printer can quickly and easily create legible labels for flat, curved or highly textured surfaces that stay stuck for years even when exposed to extreme temperatures and chemicals.

A powerful portable printer for on the job labelling in laboratories. With its extensive connectivity and networking options this easy to use system prints a large variety of high quality continuous and die-cut materials up to 38 mm wide.

Performance that matches your own. Your trusted identification companion of choice, all day, every day, for years to come. Also available in a wifi enabled version. Colour touch screen with on-screen indicators. On-board USB list management. Prints continuous, die cut labels and bulk rolls up to 50.8mm extremely fast. Also customs.

The most versatile portable printer for on the job labelling in laboratories. With its optimal efficiency it helps to reduce material waste and saves label making time. It prints on the largest variety of high quality continuous and die-cut materials up to 50 mm wide and offers an option to have custom materials created.

**BradyPrinter i5100
Industrial Label Printer**

**BradyPrinter i7100
Industrial Label Printer**

The BBP12 Label Printer is an entry level benchtop label printer for cable, component, product and laboratory sample identification that offers great value for money. The compact BBP12 offers a high print speed of 100 mm/second and can handle a wide range of highly durable and specialised Brady identification labels.

Completely hassle free, easy to use PC-based printer. Smart chip supplies automatically set up the label in your Brady software. Drop-in ribbon and label cartridges ensure fast and effortless material changes.

The BradyPrinter i5100 Industrial Label Printer offers a perfect mix of performance & smarts. This benchtop printer can print on 70 label materials, more than 1200 stock label parts and tailored custom label materials and parts. Applications include a wide range of specialised and commonly used product labels, electronics and PCB labels, logistics and asset tracking labels, cable & component identification labels and laboratory sample labels.

The BradyPrinter i7100 industrial thermal transfer benchtop printer is ideal for customers requiring reliable high volume printing on lots of different materials within the Aerospace, Defence and Mass Transit, Electronics, Automotive, Logistics, Electrical, Voice-Datacom and LAB markets. It guarantees accurate printing on sleeves, tags, labels, tapes, cable markers and much more.

BMP™ 21-LAB LABEL PRINTER

Tough on the outside, Genius on the inside

Combining a tough exterior with smart printing capabilities, the BMP21-LAB hand-held label printer can take a hit and still perform. **Laboratory symbols** & vial/tube auto-sizing, plus drop-lock-and-go cartridges, plus a rechargeable Lithium-ion battery adds up to a powerful and affordable tool for quick and efficient label making in any type of laboratory. **High quality label materials** designed specifically for the laboratory environment create durable, professional looking labels for your laboratory samples and beyond.

Designed for Laboratory

- Materials available for applications such as cryo vials and slides
- Greek symbols commonly used in laboratory, intuitive menu structure for symbols
- Vial label function automatically cuts the tape according to the size of the vial
- Automated serialisation
- Time & Date stamp

Easy to use

- 3 line LCD display provides clear visibility
- ABC keypad, graphics library, hot keys and menu functions for fast label creation
- Long life rechargeable Lithium-ion battery*
- Smart Cell Technology for automatic label setup
- Automatic label formatting for commonly used label types in laboratory
- Magnet accessory* for more convenient use and storage on smaller laboratory benches and a lanyard for hands-free operation
- Ergonomic, centre balanced printer with grab and go ridges grip for easy handling

Exceptional material variety and durability

- Laboratory specific materials designed to withstand harsh laboratory environments.
- High quality, long lasting labels that stick and stay stuck
- Prints durable true-sized 6 – 19 mm wide identification to maximise amount of data
- Adjust the length of the labels using the high performance continuous material
- Fulfill your requirements with a range of different industry specified materials that last

BMP61 LABEL PRINTER

Rugged & Reliable

- Drop-tested and equipped with moulded rubber bumpers
- Large material loading bay for fast label material swaps
- Smart-cell cartridge technology enables auto-calibration
- Large colour touchscreen with on-screen indicators: easily check which label cartridge is installed and how many labels you have left. Quickly review your label on the display before printing to avoid mistakes
- 33.8 mm/second print speed: Don't wait on the label you need
- Rechargeable NiMH-Battery for increased autonomy
- 2 year warranty

High-Performance Materials & excellent print quality

- 600 label materials + custom labels: don't use a half-baked solution. Choose from 600 label material (sleeves, self-lams and more) and ink ribbon combinations, or ask Brady to develop custom labels to answer your needs!
- Handles die-cut, continuous and custom labels up to 50.80 mm - also in bulk format
- Intuitive typing thanks to the AZERTY/QWERTY/QWERTZ/CYRILLIC keyboards
- 300 dpi print quality

Centrifuge, Eppendorf & PCR labels

Slide Labels

Well Plate Labels

Cryo Labels

General Lab Equipment Labels

Removable Labels for Glassware

BMP71 LABEL PRINTER

The BMP71 mobile label printer can print on more than 30 different types of label material including several which are specifically suitable for a laboratory environment - all designed with Brady's industrial strength durability.

- The powerful BMP71 prints faster than any other printer in its class (38 mm/sec). Don't wait longer than necessary for your labels.
- The BMP71 has a full keyboard, available in 4 versions, QWERTY, AZERTY, QWERTZ and CYRILLIC. Use both your hands to type your text instead of one finger and save you time!
- The enlarged colour screen of the BMP71 enables you to see the whole label at once, helping you to compose the label in the most efficient way, eliminating trial and error.
- The BMP71 printer is your essential tool that handles all your label printing needs

One smart printer to print it all.

BBP™ 12 LABEL PRINTER

The BBP12 Label Printer is an entry level benchtop label printer for cable, component, product and laboratory sample identification that offers great value for money. The compact BBP12 offers a high print speed of 100 mm/second and can handle a wide range of highly durable and specialised Brady identification labels.

Simple, Efficient Design

- Compact in size, fits on every desk
- Default Ethernet Connectivity, allowing you to work in a network
- Connect any universal keyboard via USB 2.0 to work in stand-alone mode
- Full colour LCD Display and intuitive software interface are simple to use, so no extensive training is required
- Simple calibration menu with easy 1-2-3 step printing
- Best price/quality in the market for low volume printing
- Comes with a free unwinder accessory to print larger label rolls

Performance

- Prints a wide range of identification labels from 6 mm up to 112 mm wide
- Standard 300 dpi print quality allowing accurate image & barcode positioning on small labels
- With its powerful 32 bit processor and its extended memory it can print up to 100 mm / sec
- The printer supports the industry-standard Zebra® and Eltron® programming languages
- Print time and date on to your labels via the “Real time clock feature”

VIEW ONLINE

Visit www.bradyeurope.com/BBP12 for more information on the BBP12 Label Printer.

While the BBP12 label printer primarily uses 25.40 mm core materials for low to medium volume printing, an unwinder is available should high volume printing be needed.

For more information about the Brady Workstation Software Suites, see page 55.

BBP™ 33 LABEL PRINTER

The BBP33 Label Printer is a completely hassle free, easy to use PC-based printer that can print signs and labels up to 101.60 mm wide. Smart chip supplies automatically set up the label in your Brady software, eliminating manual calibration and label waste. Drop-in ribbon and label cartridges ensure fast and effortless material changes. The BBP33 Label Printer can print on a full range of laboratory labels and provides you clear and durable labelling to eliminate errors in sample identification and ensure traceability.

- Eliminate errors in sample identification and ensure traceability with clear and durable labelling
- Fits best in your laboratory environment due to its small footprint
- Label materials withstand extreme conditions, including freezer storage, liquid nitrogen and hot water baths
- Automatic label setup with no calibration
- Fast and effortless material changeovers
- Prints correctly on the first label!

LABORATORY STARTER KIT

Everything you need to identify your samples is included in the BBP33 Laboratory starter kit:

- BBP33 Label Printer: works well with materials and label sizes specifically developed for harsh lab environments, enabling sample traceability for life. A small printer footprint, compatibility with specific laboratory label materials, and excellent usability, make the BBP33 a label printer of choice for laboratories.
- cryo tube: B-492 FreezerBondz Labels are designed specifically to identify laboratory samples for cryo storage and can be applied to room temperature or already frozen samples
- vials, slides and straws: B-461 Labels are ideal to identify vials, centrifuge tubes, test tubes, straws and slides. They can resist freezer, autoclave and liquid nitrogen temperatures.
- well plates: B-423 labels are an excellent solution to identify well plates and other flat, glass surfaces. They can resist freezer and autoclave temperatures.
- 2 specialised ink ribbons
- Brady Workstation label design apps: professional, intuitive apps to design quality laboratory sample identification labels. With Brady Workstation label design becomes easier, faster and quickly adaptable to new label norms thanks to centralised updates.

BradyPrinter i5100 INDUSTRIAL LABEL PRINTER

The perfect mix of performance and smarts

The BradyPrinter i5100 Industrial Label Printer is smart and easy to use, offers excellent performance and prints over 1200 standard identification labels plus user specific, tailored custom labels.

Smart & connected

- Communicates automatically with our label design apps, label consumables and ink ribbons for a smooth and fast printer setup.
- Intuitive, full colour touch screen includes a label and print status monitor which also informs you when the installed ink ribbon does not optimally match the inserted label supplies.
- Brady labels can easily be loaded thanks to a self-centering roll holder and automatic calibration and label setup.
- The printer features a range of standard ports for common industrial connectivity scenarios.

Excellent print performance

- With 300 and 600 dpi printing, the BradyPrinter i5100 offers crisp, high quality printing on reliable, industrial grade labels from 5 up to 110 mm.
- Driven by a powerful 32 bit and 800 Mhz internal printer processor, the i5100 prints at a speed of up to 300 mm/sec at 300 dpi.
- The printer's interchangeable platen rollers help to keep its performance at maximum, even after intensive use.

Reliable, industrial grade labels

- The BradyPrinter i5100 can print on 70 label materials, more than 1200 stock label parts and tailored custom label materials and parts.
- Laboratory labels: cryo tube labels, slide labels, removable glassware labels, well plate labels, tissue cassette labels a.o.

BradyPrinter i7100

INDUSTRIAL LABEL PRINTER

When accuracy meets precision

The BradyPrinter i7100 Industrial Label Printer offers durable and highly accurate label printing for business critical high volume identification challenges in Aerospace, Defence, Mass Transit, Electronics, Automotive and Logistics industries. Quickly print a wide range of high quality identification materials for a variety of applications including cable, printed circuit board and asset & component identification.

Reliable & fast precision printing

The BradyPrinter i7100 offers highly accurate label printing for business critical high volume identification challenges.

The printer features:

- a powerful internal processor designed to handle up to 7000 labels per day
- up to 300 mm/sec print speed
- 600 dpi ultra-sharp printing
- centre alignment of prints for high printing accuracy
- interchangeable platen rollers for optimised printhead life time
- a wide range of high quality identification materials

View online

Visit www.bradyeurope.com/i7100 for more information on the BradyPrinter i7100.

Easy to use

The BradyPrinter i7100 has an intuitive colour touch screen interface with distinctive icons to easily access the printer's menus. The printer's foldable cover allows for a small system footprint and enables users to quickly change consumables to start a new job or continue printing.

BRADY WORKSTATION

Brady Workstation offers professional, intuitive apps to design quality product and cable labels and safety signs. With Brady Workstation label design becomes easier, faster and quickly adaptable to new label norms thanks to centralised updates.

For more information about the Brady Workstation Software Suites, see page 55.

BradyPrinter i7100 Industrial Label Printer

Printer Specifications	
Description	BradyPrinter i7100 Industrial Label Printer
Includes	This i7100 printer comes in a cardboard box. It ships with a power cord, 2 empty ribbon cores, a USB cable, a product CD holding the driver, the user manual in languages, the configuration/settings manual in English, a printed user manual in English and a Brady Workstation Basic Suite or a Brady Workstation PWID Suite
Applications	General & Industrial Identification; Circuit Board & Component Identification; Wire & Cable Marking; Laboratory Identification
Print Speed (mm/sec)	up to 300
Internal Memory	256MB RAM, 50MB IFFS Flash, SD card, slot up to 512GB
Software Compatibility	Brady Workstation, LabelMark, Windows based driver for 3rd party software use, CodeSoft
Recommended Usage per Day	7000
Colour Capability	Monocolour
Language Support	Arabic (Egypt), Bulgarian, Croatian, Czech, Danish, Dutch, English, Finnish, French, German, Greek, Hungarian, Italian, Lithuanian, Macedonian, Norwegian (Bokmål), Persian (Farsi), Polish, Portuguese, Romanian, Russian, Serbian, Slovenian, Spanish, Swedish, Turkish
Weight (kg)	10
Size W x H x D (mm)	252 x 288 x 460
Max. Label Width (mm)	110 mm
Min. Label Width (mm)	4 mm
Max. Liner Width (mm)	114 mm
Min. Liner Width (mm)	9 mm
Max. Print Width (mm)	105.7 mm
Warranty	2 years

BSP™31 LABEL ATTACHMENT SYSTEM

- Brady has developed a unique set of products for the histology and anatomic pathology market in order to guarantee pre-process identification for tissue samples allowing traceability throughout laboratory processes as well as long term storage (< 20 years).
- The BSP31 Label Attachment System is designed to mechanically fasten an adhesive label to a tissue cassette before the tissue embedding process. This easy-to-use unit creates rivets on the label which prevent the label from detaching during the embedding process or during long-term storage
- When a cassette is inserted into the front of the unit, a clamp automatically grabs the cassette. In less than a minute, four small heat probes pierce through the label and front plastic of the cassette. Heat applied to the probes melts the cassette plastic and forms rivets on the label. When the unit retracts the probes from the cassette, the cassette is released and the user can remove it and place the biospecimen onto the cassette.
- The BSP31 unit must be used exclusively with Brady B-482 label material and the R6400 thermal transfer printer ribbon.

B-482 Tissue cassette labels

“We have received very positive feedback on the Brady cassette labels from researchers. They report that, as well as looking much more professional, the printed labels save time when they need to search through their archived blocks for a particular sample. Black text printed on a white label is very much quicker and easier to read than pencil on a green cassette. The clear labels therefore eliminate any confusion or mistakes which could occur with handwritten data.”

Cardiff University – School of Biosciences, UK

BRADY WORKSTATION SOFTWARE SUITES

Brady Workstation offers professional, intuitive apps to design quality product and cable labels and safety signs. Label design becomes easier, faster and quickly adaptable to new label norms thanks to centralised updates.

Select the apps you need

Simply select the apps you need, download the 30-day trial and purchase when satisfied. Here are just a few of the sample containers included in Brady Workstation:

- Cryovials
- Slides
- Tissue Cassettes
- Well Plates
- Centrifuge tubes

BRADY WORKSTATION BASIC DESIGN SOFTWARE SUITE

Get everyone in your facility up and running quickly on as many computers as you like with this free label creation software! You'll have basic design, formatting, graphics and simple barcode libraries to create labels like a pro!

The Basic Suite is included with every printer, all you need to do is download it. Workstation.BradyID.com/Free

Try it today! Discover Brady Workstation at www.bradyeurope.com/workstation or download at workstation.bradyid.com.

BRADY WORKSTATION PRODUCT AND WIRE IDENTIFICATION SOFTWARE SUITE

Quickly identify your products and wires with customised text or graphical labels, using serialised or imported data. Workstation.BradyID.com/ProductandWire

BRADY WORKSTATION SAFETY AND FACILITY IDENTIFICATION SOFTWARE SUITE

Keep your facility safe and compliant by creating custom signs, label and pipemarkers, adding visual safety guidance. Workstation.BradyID.com/SafetyAndFacility

BRADY WORKSTATION DATA AUTOMATION

Use the Brady Workstation Data Automation app to set up automated sample label printing using information from a LIMS. Data Automation uses Brady Workstation label templates and .csv – exports from an ERP system such as LIMS. It enables the setup of several print channels that send preselected information to a predetermined label template which can be printed on a printer of choice, loaded with the correct consumables. Once set up, Data Automation can automatically print a sample label when a LIMS receives information on a newly arrived sample.

CODESOFT™ LABEL CREATION SOFTWARE

CodeSoft is a very powerful, feature-rich design software. It has the most text editing and bar code features, plus it is the best choice for advanced database importation and integration with 3rd party software programs - like LIMS.

- Over 100 Bar code symbologies including linear and 2D
- Robust data sourcing capabilities
- View labels and data in the same screen
- Label Comparison tool for previewing labels at design or production stages
- OLE automation supports object integration from any 3rd party Windows® application
- Enhanced Shape Tool makes using graphics and shapes on your labels a snap
- CodeSoft Pro - is for users printing text, images and bar codes on one to three printers
- CodeSoft Enterprise - is for user printing from databases and existing systems
- CodeSoft Network - is for users who want to manage licenses from a server

Brady offers a range of easy-to-use, high density scanners with superior imaging technology (Adaptus) that enable :

- fast and efficient scanning of any barcode, 2D-code or QR-code on a range of surfaces
- optimal handling thanks to a light weight and small size
- durable and reliable, stays intact in drop tests when falling from up to 1.8 m.

BRADY WORKSTATION

In order to achieve full track & trace control, you can use Brady Workstation apps to quickly design labels, import data from ERP or LIMS-systems, add QR-codes, barcodes or other 2D-codes, serialise and hit print. When printed with the specialised inks of a Brady printer, our label materials can identify items throughout complete production cycles and in storage much more effectively and much longer than any non-specialised solution.

LINEAR VS. 2-DIMENSIONAL BAR CODES

7 mil Examples	10 mil Examples	Symbol Size (mm) Row x Column	Bar Code Data Capacity		Built-in Error Correction
			Numeric	Alphanumeric

WIRED SCANNER VOYAGER 1250

Optimised for fast scanning of linear bar codes, including poorly printed and damaged codes, the Voyager 1250g enables enterprises to minimise manual data entry, leading to increased productivity and reduction in errors.

- 1D barcodes
- Laser technology
- Read barcodes up to 44.7 cm away
- Ergonomic design
- IP40 rated

Article No.	Description
197614	Honeywell Voyager 1250g handheld scanner

WIRED SCANNER XENON 1900 HD

Powered by sixth-generation Adaptus™ imaging technology, the Xenon 1900g scanner delivers superior barcode scanning and digital image capture. The scanner incorporates a revolutionary decoding architecture and a custom sensor, enabling extended depth of field, faster reading and improved scanning performance on poor-quality barcodes. From high-density linear to 2D barcodes found directly on the screen of a mobile device, the Xenon 1900g scanner decodes virtually all barcodes with ease.

- High Definition Focus
- 1D and 2D barcodes
- Drop resistance to 1.8 m
- Integrated Adaptus Imaging technology :
 - Extended depth of field
 - Faster barcode reading
 - Improved scanning performance on poor quality barcodes
- IP41 rated
- Disinfectant-ready housing for Healthcare

197611	Xenon 1900H HD

WIRELESS SCANNER XENON 1902 HD

Powered by Adaptus® Imaging Technology 6.0, the wireless area-imaging scanner Xenon 1902 delivers superior bar code scanning and digital image capture. Xenon 1902 incorporates a revolutionary decoding architecture and a custom sensor, enabling extended depth of field, faster reading, and improved scanning performance on poor quality bar codes. From high density linear to 2D bar codes found directly on the screen of a mobile device, Xenon 1902 decodes virtually all bar codes with ease. Xenon 1902 incorporates a Bluetooth Class 2, v2.1 radio, enabling unrestricted movement up to 10m from the base, and a battery that provides up to 14 hours of battery life. For added convenience, a paging system helps locate misplaced scanners.

- High Definition Focus
- 1D and 2D barcodes
- Bluetooth Class 2
- Long-lasting lithium-ion battery
- Drop resistance to 1.8 m
- Integrated Adaptus Imaging technology :
 - Extended depth of field
 - Faster barcode reading
 - Improved scanning performance on poor quality barcodes
- IP41 rated
- Disinfectant-ready housing for Healthcare

ALL CHEMICALS LABELLED?

CLP is a mandatory European Union regulation which requires, amongst other obligations, the clear identification of products containing dangerous chemicals.

The EU's CLP regulation is based on the United Nation's Globally Harmonised System for chemical substances and, from June 2015 onwards, compliance to CLP is required for dangerous chemicals and mixtures in all EU member states. Every substance listed as dangerous, and every mix containing one of these dangerous substances, also needs to carry a CLP label as of June 2015.

WHAT IS CLP?

Classification, Labelling and Packaging (CLP) of substances and mixtures is the EU Regulation 1272/2008 which is an EU-wide system for classifying and labelling chemicals.

The system adopts the United Nations' Globally Harmonised System, or GHS.

- The GHS/CLP symbols were introduced in the EU on the basis of the CLP/GHS regulation (Classification, Labelling and Packaging) in January 2009.
- **GHS/CLP replaces the HSID labelling:** The orange coloured hazardous materials pictograms used until now are being replaced with new diamond-shaped pictograms on a white background with a red border. The current R+S Statements are replaced by H+P Statements (+ EUH Statements). In the EU, it has been required since 01.12.2010 to label **chemical substances** in accordance with the regulation. As from 01.06.2015 this requirement also applies to **chemical mixtures**. In the CLP/GHS the signal words "Danger and "Warning must be used, in accordance with the substance.

WHY DOES GHS MATTER?

Chemical import/export means big business

Globally, the production and use of chemicals is a more than 1.5 trillion € per year enterprise (340€ billion in the U.S. alone). Chemical labelling has appeared differently based on different regional requirements. With such an impact on the world economy, it's critical that the import and export of chemicals be made as safe and efficient as possible.

The GHS standard globally helps keep workers safe and informed of chemical hazards.

PRE-PRINTED LABELS WITH CLP/GHS SYMBOLS

Brady has a wide range of pre-printed labels to identify your chemical containers.

- High quality labels that can withstand the toughest environments
- Ultra-durable materials mean you only need to label products once in their lifetime
- Extremely weather, abrasion and chemical resistant
- Labels can withstand temperatures of -40 °C to +120 °C

LAB PACK

- Ideal for medium sized spills.
- Water and chemical resistant drum protects sorbents.
- Easy access to products thanks to screw top lid.
- Drum can be used as shipping container for used sorbents.

Kit contains: 12 pads (41 cm x 51 cm), 3 socks (Ø 7.6 cm x 366 cm), 2 pillows (43 cm x 48 cm), 1 pair of gloves, 1 pair of goggles and 3 disposal bags.

Order Reference	Article No.	Description	Quantity	Absorption Capacity (Ltrs)

SPC SPILL BOX - PADS IN A CONVENIENT DISPENSER BOX ALLOWING YOU TO CREATE MULTIPLE SPILL STATIONS AROUND YOUR SITE!

- Reusable plastic box can be refilled once all the sorbents have been used.
- The Spill Box is light enough to be hung to laboratory and storage area walls or to be attached to a forklift.
- The bright yellow colour stands out for quick identification and use.
- Various application areas: in liquid storage areas, behind the seat of a truck, lab environments, in workstations that deal with liquids.

Order Reference	Article No.	Description	Total Qty/Pack
SA-SBA	813909	SPILL BOX, Maintenance, filled box with 15 pads	15 Pad(s) / Kit

SPILL RESPONSE PLUS

Spill Response Plus is a smaller size pad and roll designed to be highly absorbent, durable, low lint and to reduce waste.

- Dimpled design provides better looking, strong and durable product
- Roll is perforated so you only use what you need
- Includes universal (grey) and chemical (green) applications
- **Perfect to be used with Spill Safety Stations**

Order Reference	Article No.	Description	Colour	Total Qty/ Pack	Absorption Capacity (Ltrs)

SKH-MINI

A FULLY DISPOSABLE SPILL KIT TO CLEAN UP SMALL CHEMICAL SPILLS EASILY AND WITHOUT RISK OF INJURIES.

- The autoclavable disposal bag is heat resistant up to 145°C to guarantee safe disposal of laboratory waste.
- Suited for spills of up to 1.7 litres, absorbing chemicals, water & oil based fluids.
- The specially designed disposable brush is intended to sweep up any broken glass or debris allowing a safe clean up without risk of injuries.
- Compact design: the SKH-MINI can easily be placed in any areas where it is most needed.
- Protective gloves are powder free, have roughened fingertips, increased tear resistance and a good chemical resistance for more safety.

Contents: 2 pads (41 cm x 51 cm), 1 pair of disposable chemical protective gloves, 1 autoclavable disposal bag, 1 disposable brush and 1 multilingual instruction guide.

Order Reference	Article No.	Description	Quantity	Absorption Capacity (Ltrs)

HAZWIK PILLOWS - FOR ABSORBING SPILLS & LEAKING LIQUIDS IN TIGHT SPACES.

Protection of fragile liquids during transport.

- Absorb chemicals, acids & bases.
- Good for large spills once contained.
- Ideal for use in packaging for extra protection during transport.
- 2 different sizes to fit any application.

Order Reference	Article No.	Description	Total Qty/Pack	Absorption Capacity (Ltrs)
HAZ1818	813853	Pillow, 43 cm x 48 cm	16 Piece(s) / Box	105

HAZ99	813855	Pillow, 23 cm x 23 cm	32 Piece(s) / Box	58

UN Booms

THE BEST WAY TO ABSORB AND CONTAIN LARGE SPILLS OF CHEMICALS AND HAZARDOUS LIQUIDS.

- Absorb chemicals, acids & bases as well as oils and water-based liquids.
- Metal clips & rings allow for easy linking of booms.
- Inner rope secured with four clips provides strength.
- Strong outer sleeve for durability.
- Inner sleeve keeps the adsorbent material intact within the boom.

Order Reference	Article No.	Description	Total Qty/Pack	Absorption Capacity (Ltrs)
UN810	813848	Boom, Ø 20 cm x 3 m	4 Piece(s) / Bag	261
UN510	813849	Boom, Ø 13 cm x 3 m	4 Piece(s) / Bag	119

HAZWIK Socs

CONFINE & PREVENT HAZARDOUS SPILLS FROM SPREADING.

- Absorb chemicals, acids & bases.
- Different lengths available to always have the right size for your application.
- Flexible design is easily moulded around machines and spills.

Order Reference	Article No.	Description	Total Qty/Pack	Absorption Capacity (Ltrs)
HAZ412	813850	Soc, Ø 7.6 cm x 122 cm	12 Piece(s) / Box	43
HAZ806	813851	Soc, Ø 7.6 cm x 244 cm	6 Piece(s) / Box	43
HAZ124	813852	Soc, Ø 7.6 cm x 366 cm	4 Piece(s) / Box	43

UN PADS & ROLLS

FOR USE WHEN CHEMICALS AND HAZARDOUS LIQUIDS ARE INVOLVED!

- Chemically inert: product does not degrade or cause a dangerous chemical reaction with the adsorbed liquid.
- One-sided spunbond gives extra strength as well as lower lint.
- Perforated for flexibility – tear at the perforations for smaller sized pads to use only what you need.
