Extensive RFID support		X
Fit-text-to-box (dynamic point size)		X
Text on ellipse		X
Wrap-text-to-shape (word-wrapping and text justification to non-rectangular shapes)		X
Object alignment tools with snap-to-objects and arbitrary rotation of all objects	X	X
Relative object positioning and variable label length		X
Library of ready-to-use international standards compliance label templates		X
More than 70 linear and 2D barcode symbologies with support for printer-based barcodes	X	X
Intuitive GS1 Application Identifier Data Source Wizard	X	X

Do more. Faster. With less.

	Designer Express	Designer Pro
GENERAL		
Automatic check digit calculation	X	X
Place "human readable" text anywhere in relation to barcodes	X	X
Customizable "human readable" character template	X	X
Object printing based on dynamic data (business rules)		X
Unlimited undo and redo commands	X	X
Security: lock label design with a password		X
DYNAMIC DATA		
Single screen for straightforward management of dynamic data (Dynamic Data Manager)		X
Import and Export Dynamic data definitions		X
Keyboard or scanner input at print time	X	X
Decimal counters	X	X
Full serialization including support for printer-based serial numbers		X
Date and Time fields sourced from PC or Printer	X	X
Print data from Excel and text files	X	X
Full database connectivity to almost any existing database		X
Custom SQL database queries		X
Reusable connections to multiple databases and tables within the label or solution		X
Edit database connected documents without accessible database (offline mode)	X	X
Variable graphic fields including graphics sourced from database		X
10+ prebuilt functions for efficient data concatenation and processing		X
VBScript and Python scripting for custom data processing		X
ON-DEMAND CONTROLLED PRINTING AND PRINT PRODUCTIVITY		
Auto-built, all-in-one printing form with data entry controls and dynamic print job preview	X	X
Customizable data-entry filters and error checking	X	X
Print time database record selection on a single screen	X	X
Secure operator environment for efficient document selection and printing (NiceLabel Print)	X	X
Single click creation of shortcuts for printing	X	X
Adaptable print form for improved control and efficiency (recommended for touch screens)		X
Responsive form design to fit different screen resolutions		X
PRINTING
