Dear customer,

Tele-Exxi Oy, for friends "Exxi", is also officially Exxi Oy now.

Tele-Exxi was founded 1989 to distribute components and solutions to telecommunication industry. E.g. Tele-Exxi supplied majority of Nokia's mobile phone labels worldwide. Telecommunication, electric and electronic industries are still significant market segment, but Exxi has served for years also all other industries, laboratories, real estates, security, transportation etc.

The time has come to start using Exxi officially. It covers better our whole market and services provided.

Exxi - Excellent Identification

Other information is as before. Please do not hesitate to contact us in this matter.
